**OUESTION OF EDUCATION** 

A Correspondent Wants to Know How the Alliance Stands.

INGOLD, N. C. MR. EDITOR:-Having seen at differ ent times expressed through the Biblical Recorder the views of some of the leading Baptists of North Carolina touching the question of education and the propriety and fairness of the annual appropriation of \$20,000 to the University of North Carolina, by the legislature of North Carolina, and seeing also in the Recorder of Jan 28th an article by Bishop H. M. McTyre expressing the views of some of the leading Methodists, I, as an Alliance man, ask how does the Farmers' Alli ance of North Carolina stand on this great question?

Brethren, discuss it in your Sub-Alliance meetings, your Alliance Unions, and County Alliance meetings and express, through the columns of THE PROGRESSIVE FARMER, Biblical Recorder or some other paper that is friendly to the Alliance, your opinions on this great question.

> Your brother, OH! BE AN ALLIANCEMAN. DAIRY NOTES

Cream is ripe when it has a glossy appearance.

Water should not be given to cows immediately after a hearty meal. Let an hour or more elapse.

Cows are not kept for their company, therefore don't let them go dry four to six months out of the year.

Milk when pure and fresh can be heated without injury, but cream must not be heated after it becomes acid.

Of course every dairy farmer has laid in a supply of ice for next summer's use. It is something you need in your business.

A creamery, when rightly con ducted, is a blessing to any community, but it takes a good while for some farmers to see the point.

Dark cow stables are an abomination because disease is an abomination, and darkness is conducive to disease. Let THE in the sunlight.

If you keep your milk and cream in the cellar, along with turnips, potatoes and rotten pumpkins, and have no othe place to keep it, sell your cows.

Cream sometimes becomes bitter if raised in pans at a temperature too low for the milk to sour. Milk in pans should be sour in thirty six hours.

We have seen farmers kick their cows without mercy. How much more issects and worms out of the soil. Send for sensible it would be for them to kick the stable door, and the same result would be assained—they would give their wrath vent.
